Elizabeth (Betsy) Sorrel and Kenneth (Ken) Martin had a picture-perfect ceremony on the lawn of their new home in Greenwich, Connecticut. They stood before guests on a rolling hill with a pond and the setting sun in the background. Betsy (46 and a real estate investor) met Ken (45 and a construction company president) through mutual friends. They scheduled a dinner to talk business, but they ended up talking about everything but real estate. After that, the two started spending a lot of time together. Then Betsy was scheduled to have minor surgery and it became a major ordeal. She became extremely ill and Ken stepped in to take care of her. The experience made them close and Betsy realized that Ken was already her family. One November, Ken took Betsy away to Vermont for an autumn vacation. He proposed on a chilly evening under the stars. —CC
